

Aerospace Management Systems L.L.C.

An Affluence Company

In today's international economic environment, logistics is essential to the value of the supply chain. It encompasses substantially more than the shipment and receipt of goods and services. It's about the economical flow of goods and the associated information, getting from the point of origin to a place where consumption can occur, leading to streamlined processes and superior profits. This integral process must be planned, implemented and managed with a diligent focus on detail and extreme care.

Aerospace Management Systems, L.L.C., a 4PL company, understands the intricacies of logistics. Our mission is to be recognized globally as an industry leading, customer focused, quality oriented logistics team. In every engagement, we endeavor to make decisions and craft strategies that positively impact our customer's profitability, contributing to the achievement of the organization's financial and service goals, as well as those of its individuals.

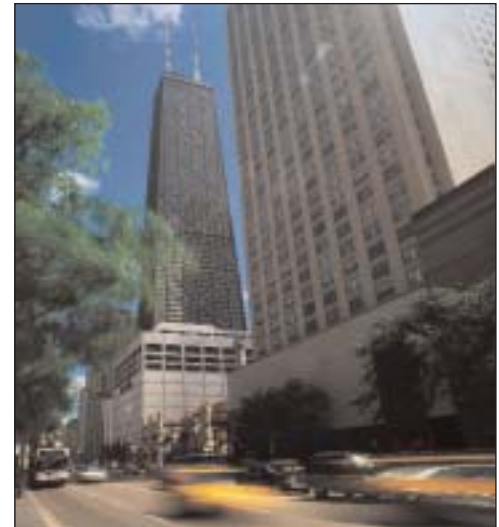

Our services include:

- International Air Freight Forwarding
- Global Customs Services
- Flexible Distribution and Warehousing Services
- Transportation Risk Analysis and Cargo Insurance
- Ocean Transportation Intermediary (OTI)
- Comprehensive Order Management
- Specialized Management Software and Services

While service and solution design are key elements for providing quality logistics, at AMS we believe that our core values contribute just as significantly to our success. We have built our business on critical themes which include:

Strong Customer Focus

Strive always to surpass the client's requirements with innovative solutions.

Integrity and Dignity

Practice honest and open communications based on respect of others perspectives.

Diversity and Education

Attain a high standard of skill development internally and among our business partners.

Team Oriented Solutions

Discuss solutions and issues to ensure team understanding and support

Reward Performance

Recognize individuals and teams for significant efforts and achievements.

Profitable Expansion

Expand business and service portfolio after careful scrutiny demonstrates a sound potential of increasing AMS' net worth and offers important customer value.
